

# Data Flow Diagram & User Stories

Date	20 February 2026
Team ID	LTVIP2026TMIDS81521
Project Name	DocSpot: Seamless Appointment Booking for Health
Maximum Marks	4 Marks

## Data Flow Diagrams:

A **Data Flow Diagram (DFD)** illustrates how data moves within the Freelance Finder platform. It captures how users (freelancers and clients) interact with the system, how information flows between different components, and where the data is stored.

### **As a Patient, I want to:**

- Register and log in securely so I can access my appointments.
- Search for doctors based on specialty, location, and availability to find the right match for my needs.
- Book an appointment by choosing a convenient time and uploading my medical reports.
- View my booking history and track the status of upcoming appointments.
- Reschedule or cancel appointments if my plans change.
- Receive reminders for my upcoming visits via SMS or email.
- Leave a review after my consultation to share my experience.

### **As a Doctor, I want to:**

- Register and create a professional profile with specialization and experience details.
- Set my available time slots so patients can book accordingly.
- View appointment requests and confirm or reject them.
- Access uploaded patient documents before the consultation.
- Add visit notes or digital prescriptions for future reference.
- Manage my daily schedule from a personal dashboard.

### **As an Admin, I want to:**

- Review and approve doctor registrations to maintain platform integrity.
- Monitor bookings and user activity from an admin dashboard.
- Remove or suspend users in case of rule violations or issues.
- View platform analytics like appointment volume or doctor activity.
- Handle user disputes or flagged bookings efficiently.

## User Stories – DocSpot Appointment Booking App

User Role	User Story ID	User Story
<b>Patient</b>	US-P1	As a patient, I want to register and log in securely so I can manage my appointments.
<b>Patient</b>	US-P2	As a patient, I want to search for doctors by specialty and location to find the right one.
